

Megaflo[®]

Flat pipe drainage system

Product Data

This panel-shaped, geo composite pipe is designed for rapid drainage on greens, fairways and tees, as well as other playing fields. With twice the soil contact area of 100mm round pipe, **Megaflo®** will drain a given quantity of water in about 60% of the time. It's unique design allows it to be laid flat eliminating the need to trench.

Megaflo® Specification		
Panel Width	300mm	150mm
Roll Sizes	50m 100 m	20m 50m
Slot Size	2.0 mm x 25 mm	2.0 mm x 25 mm
Comprehensive Strength	>200kpa	>200kpa
Panel Height	40 mm	40 mm

IMPORTANT NOTICE

The information contained in this brochure is general in nature. In particular the content of this brochure does not take account of specific conditions that may be present at your site. Site conditions may alter the performance and longevity of the product and in extreme cases may make the product wholly unsuitable. Any data or specifications contained in this brochure are average values obtained in our laboratory. Actual dimensions and performance may vary. If your project requires accuracy to a certain specified tolerance level you must advise us before ordering the product from us. We can then advise whether the product will meet the required tolerances. Where provided, installation instructions cover installation of product in site conditions that are conducive to its use and optimum performance. If you have any doubts as to the installation instructions or their application to your site, please contact us for clarification before commencing installation. In all cases we recommend that advice be obtained from a qualified consulting engineer before proceeding with installation. © Copyright held by Geofabrics Australasia Pty Ltd.
